

THE WFZC MONTHLY ZONE ACTIVITY REPORT

As a result of many demands WFZC have enabled a monthly reporting system.

WFZC monitors Zones around the world and in the years since the organisation came into existence in 2001, the image of free zones around the world has been transformed. More than 120 countries now have some form of zone development programme, some of which are in a period of full expansion. Our Annual Convention and intermediate International Conferences allow for regular discussion on current topics to facilitate peer group evaluation and to share knowledge in this highly competitive area.

Now we can share this essential information with our subscribers.

The original criticisms of, and the tax upon, zones has significantly diminished in volume; countries with existing zone programmes have been proudly promoting them whilst new countries have been emulating established zones and developing programmes to catch up. WFZC has played a part in disseminating information about the success of zones, engaging in close discussion with key officials, whose attitudes affect the future of zones, and acting as an exchange centre for well-led zones.

Each month you will be sent a package of information about zones throughout the world. These will be indexed according to country and to the name of zone. The information is collected from various sources and is fully up to date.

Who is investing where? This month we cover the new Chinese Zones in Africa, news from the booming Indian SEZ programme, from the USA, Poland, Indonesia, the UAE, Iraq, Cambodia etc.

Subscribe now by completing the form below and returning it by fax to WFZC at +44 870131 9578
